PROFESSIONAL SUMMARY

Fourth-year Mathematics & Computer Science student (University of Murcia), on Erasmus+ at AGH University of Kraków. Software developer with ERP internship experience (React) and a habit of shipping complete products on my own: web apps, PWAs, an Android app and AI-powered bots. Strong algorithmic background, product mindset.

EXPERIENCE

STEL Order (STEL Solutions) — **Murcia, Spain**
Software Engineer Intern, Full-Stack — *Jun 2026 – Aug 2026*

- Developed the Point-of-Sale (POS) module of STEL Order, a cloud ERP for SMEs, end to end: React interface with ticket generation and product catalogue, plus server logic to manage and synchronise sales; feature-complete by the end of the internship.
- Built React components for the STEL Order in-app assistant, improving the user experience.
- Integrated REST APIs and maintained production code with Git.

PROJECTS

Krakount – shared expenses & trip planner PWA · *Solo, 2026* — **Next.js · TypeScript · Supabase**

- In beta with about 20 users from my Erasmus group: Tricount-style app with debt simplification and multi-currency (PLN/EUR) balances.
- Scans Polish supermarket receipts with on-device OCR (Tesseract.js) to split shopping tickets item by item.
- Offline PWA with push reminders, tested in CI (Vitest, Playwright). Demo video: youtube.com/shorts/do_RM67hgeg

MyCrohnie – HackYeah 2026, Sport & Healthcare · *Lead developer, Oct 2026* — **Next.js · React · TypeScript**

- PWA for children with Crohn's disease, built at HackYeah, one of Europe's largest in-person hackathons.
- Designed the software architecture and wrote most of the code. Live demo: mycrohnie.vercel.app

Barber Bot – Telegram booking assistant · *Solo, 2026* — **TypeScript · LLM APIs · Vercel**

- Serverless bot that books appointments from text or voice notes in Spanish, Polish and English (Whisper + LLMs), with a layered AI fallback so customers are never stuck; €0/month to run.

Zloty-Euro – Android currency app · *Solo, 2026* — **Kotlin · Jetpack Compose · ML Kit**

- Home-screen widget plus a camera mode that detects printed prices and converts them live.

EDUCATION & AWARDS

Universidad de Murcia — **Murcia, Spain**
Double B.S. in Mathematics & Computer Science — *Expected 2028*

- **Erasmus+ exchange:** AGH University of Kraków, Poland (full academic year 2026–2027).
- **Key Coursework:** Algorithms and Data Structures (Highest Honors), Computer Architecture; Competitive Programming Course.
- **Olympiads:** 7th place, Murcian Programming Olympiad (twice); Accésit, Regional Mathematics Olympiad.

SKILLS

- **Programming:** C++, TypeScript/JavaScript, Python, Java, Kotlin, C, SQL.
- **Tools & AI:** React, Next.js, Node.js, Jetpack Compose, PostgreSQL (Supabase), Docker, Git, GitHub Actions; LLM APIs, Whisper, OCR, AI-assisted development (Claude Code).
- **Spoken languages:** Spanish (native), English (C1).

I hereby consent to the processing of my personal data included in this CV for the purposes of the recruitment process, in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council (GDPR).
